Attorney's Docket No.: 10559-371001 / P10177/INTEL

Amendments to the Specification:

Please add the following new paragraph after the paragraph ending at page 1, line 22:

---

SUMMARY

The disclosure relates to software upgrades of a peripheral device using an update package. For example, according to one aspect, a method includes sending an upgrade package over a computer network, receiving the upgrade package in a network device, and automatically upgrading internal software of a peripheral device installed in the network device using the upgrade package.

a1 A system may include a computer network, a network device coupled to the network, and a peripheral device installed with the network device wherein the network device includes a processor configured to receive an upgrade package over the network and automatically upgrade the peripheral device using the upgrade package.

Additional features and various advantages will be readily apparent from the following description, the accompanying drawings and the claims.
